Superintendent/President's Message

Dear Community, I am delighted to share with you the achievements and aspirations of Imperial Valley College as you navigate through the pages of our institutional fact book. This comprehensive report not only reflects our collective accomplishments but also outlines our vision for the future.

As we embark on this transformative journey, our overarching goal by the year 2030 is to eliminate barriers to increase student access and success, with a particular focus on eradicating poverty in Imperial County. We firmly believe that education is the key to unlocking opportunities and breaking the chains of poverty, and it is our responsibility to empower our students to achieve their dreams.

One of our key targets is to increase our Full-Time Equivalent Students (FTES) to 10,000, a milestone that reflects our commitment to broadening educational access in the region. Concurrently, we are actively engaged in ongoing efforts to elevate student success rates, aspiring to attain some of the highest transfer, graduation, and time-to-completion rates in the state of California.

At the heart of our mission is the pledge to eliminate equity gaps, ensuring that every student, regardless of background, has equal opportunities for success. We understand that true progress lies in inclusivity, and we are dedicated to creating an environment where all students can thrive. Our institution's commitment to fostering educational access is reflected in a commendable increase to high school dual enrollment participation, which builds bridges for students to seamlessly transition to IVC or the University of their choice. Equally noteworthy are our students' strong employment outcomes, where over 80% have secured employment within 6-months of graduation and have reported increased earnings, which is a testament to the quality education and skills development they receive here. As we celebrate these achievements, we remain steadfast in our commitment to helping students achieve their goals.

To this end, we have disbursed over \$45.5MM in financial aid and grants, breaking down financial barriers that often impede students' progress. In recognition of the challenges life can pose, we have established emergency funds and services to assist students facing hardships, ensuring that their educational journey is not disrupted. Our success in providing student housing has been nothing short of transformative, particularly for our most vulnerable students. By addressing the basic need for stable housing, we have witnessed tremendous strides in academic and personal development.

As we reflect on our achievements, together, we are making a significant impact on the lives of our students and the community at large. Let this institutional fact book serve as a testament to our shared commitment to excellence, access, and equity.

Thank you for your dedication and contributions to the success of Imperial Valley College. Together, we are shaping a brighter future for our students and the Imperial County community.

Sincerely,

Dr. Lennor M. Johnson
