Recent Enrollment Demand: High X Medium _____ Low _____

Projection for Future Demand : Growing X Stable _____ Declining _____

Opportunity Analysis: (Successes, new curriculum development, alternative delivery mechanisms, interdisciplinary strategies, etc.)

- Sociology classes are in high demand and are anticipated to be even more with the new TMC.
- Aligning the new TMC with course offerings and re-assessing the requirements and courses used in earning the local degree.
- Offering more online and hybrid classes.
- Providing training and encouragement for faculty to utilize the Blackboard teaching platform
- Expand the Media Resource Library to provide resources to the Campus and community organizations
- Continue SLO assessments to facilitate continuous program development

Summary of Program "Health" Evaluation: (Including consideration of size, score, productivity and quality of outcomes)

- Solid program with high demand and fill-rates.
- Section offerings remain consistent with slight variations to flex for student demand
- Class Fill-Rates: has exceeded 100% for the last six semesters; ranging from 105.38% to 140.71%
- Productivity: has remained high
- Completion Rate: average in the mid to upper 80s
- Success Rate: This continues to be a major challenge. Over the last four semesters there has been a slight increase in the success rate each semester which coupled with the transition to the new TMC provide opportunities for improving the health of this program

Student Learning Outcomes and Program Learning Outcomes

Student Learning Outcomes Assessment –completion

Program Learning Outcomes Assessment

Success Rate of Student Learning Outcomes

Success Rate of Program Learning Outcomes

Future Goals of Program

Transition and implementation of the new TMC
Expand the Media Resource Library and provide access to the Campus and community organizations
Establish a social science statistics course

Resource requests from annual program review

1. Purchase an SPSS statistics research program
