ACCJC Accreditation Standards II.A and II.A.9

The program and curricula of the District shall be of high quality, relevant to community and student needs, and evaluated regularly to ensure quality and currency. To that end, the CEO shall establish procedures for the development and review of all curricular offerings, including their establishment, modification or discontinuance.

Furthermore, these procedures shall include:

- appropriate involvement of the faculty and Academic Senate in all processes;
- regular review and justification of programs and course descriptions;
- opportunities for training for persons involved in aspects of curriculum development;
- consideration of job market and other related information for vocational and occupational programs;
- development of a general catalog and announcement of courses.

All new programs and program discontinuances shall be approved by the Board.

All new programs shall be submitted to the California Community Colleges Chancellor's Office for approval as required.

Individual degree-applicable credit courses offered as part of a permitted educational program shall be approved by the Board. Nondegree-applicable credit and degree-applicable courses that are not part of an existing approved program must satisfy the conditions authorized by Title 5 regulations and shall be approved by the Board.

The Board delegates the authority for all other actions to the CEO.

Credit Hour

Consistent with federal regulations applicable to federal financial aid eligibility, the District shall assess and designate each of its programs as either a “credit hour” program or a “clock hour” program.

The CEO will establish procedures which prescribe the definition of “credit hour” consistent with applicable federal regulations, as they apply to community college districts.

The CEO shall establish procedures to assure that curriculum and the District complies with the definition of “credit hour” or “clock hour,” where applicable. The CEO shall also establish procedures for using a clock-to-credit hour conversion formula to determine whether a credit hour program is eligible for federal financial aid. The conversion formula is used to determine whether such a credit-hour program has an appropriate minimum number of clock hours of instruction for each credit hour it claims.
